## Second Regiment N. G. S. M.

The 2nd Regiment (Infantry) N. G. S. M. made a bit with Capt. H. A. Wiscasset, 24th Infantry, U. S. A., who watched work in the Connecticut maneuver campaign last summer. In his report he says: "Considering that in our national forces state troops will be called out to assist the regular establishment in meeting the immediate needs of war with a first class power. It is believed that the 2nd Maine Infantry should be among our leading state troops in the field forces first organized. As the question is open an expression of opinion and dependent largely upon the standard by which measured, the undersigned would say that he has not yet seen any state troops who can be raised to war strength on present standards and gotten ready for efficient field service in one month's time. That some can be gotten ready who would be of some value is undoubtedly true, and when considered under this assumption it is believed the 2nd Maine Infantry would, if our supply departments can promptly meet the demand upon them from all sources, be ready to take the field in the time specified." He states that the men as a whole are "strong and rugged, enthusiastic in military work and are not grumblers, and many of the natural woodsmen are engaged in work of a heavy nature, and "roughing." To this he adds: "It is learned that in time of war many such men would come into service so that the rigors of active service would not likely be so much felt by this regiment at first as it would by many others." As evidence of the regiment's ability to stand together under difficulties he cites the following: "In the engagement west of Zoar's Bridge, 13 Aug. '12, the 2d Maine Infantry was ordered to come up on and join the left of the line. In executing this order the regiment had to cross a bog, quite large and heavily overgrown in underbrush, making moving and contact exceedingly difficult. The undersigned being mounted had to find a way around this bog and went to where the regiment was supposed to join the line, intending to aid in getting at least a portion of the regiment into the line at the designated place, as it seemed certain the regiment would become confused and broken up in the swamp and some of it possibly diverted from its proper course. Much to my surprise I found the regiment emerging from the swamp in skirmish formation, in its proper place, and seemingly in the same order as at first directed while still on favorable ground."

Capt. Wiscasset states that the observance of military courtesy was very good, that promptness and orderliness were excellent for state troops that the conduct of the men was excellent and that the officers with the possible exception of two or three were energetic, intelligent and seemingly the work for reasons other than to display uniforms and insignia of rank. The uniformity in the matter of footwear is commended and it is stated that the rifles were in excellent condition for state troops.

The report was forwarded by the Chief of the Division of Militia Affairs with the following comment: To put it mildly Adjutant General Elliott C. Dill is also gratified and has made the report the leading feature of the November bulletin.

## As It Was in the Long Ago

At Umbagog Lake.  
I was living near the shores of the Umbagog Lake, and the people residing there wished me to take a small schooner and this was how it came about. Mrs. Joseph Stone and her large family of twelve children were at that time to draw school-money. Mrs. Stone took a small row boat and one of the big boys and came across the lake where my father lived, and asked me to go over the lake and keep school in her house, for she said, "I want my boys to learn to read, if nothing more."

I decided to go, and had to walk a mile to the landing where the little boat was moored. The lake was rough that day, for the wind blew quite hard, and it was the first time I was ever on the water in a small rowboat like that. I was afraid. Mrs. Stone sat at one end of the boat and paddled to keep the boat straight, while the boy rowed. It was so rough we had to land and walk quite a distance through the woods to get to her house. She would say to me, "Don't be afraid, there is no danger" and was cheerful and happy as possible herself.

Mrs. Stone was of Indian descent, but a more kind hearted, dear lady I never met. Her family of nine children loved about her. They are for all adventures. They had lived in a small log house for a long time, but at the time I went there they had built a two story house, and had made one room fairly comfortable.

The chamber, or upper story (for I had all of it) was a very nice room. Good air, and plenty of room. There I gave the boys some lessons, and did the best I could under existing circumstances. The boys learned well, for they tried hard, and though they were big boys, not taller than I was, they were as nice to me as though I had been a queen instead. We went to Metacomb's Island, a small island in the Umbagog Lake, so called because he was the "one Indian" (the last one of his tribe), and so often visited that lake and island.

Mrs. Stone was divided in that lake, and left the nine children, seven boys and two girls. Most of them have passed away. There may be some of the youngest living now, they moved to the Lakes from Otisfield. The youngest girl, Mary, married a man from Massachusetts. They finished their house and furnished it very comfortably for that place. BY A LADY OF 83 YEARS.

GILEAD.  
Her First Deer.  
Leonora Goodnow was the only lucky lady hunter of this vicinity this year. Mrs. Goodnow was not gone only about an hour and a half from her home, hunting in an old orchard, when the deer came in looking for his supper.

Mrs. Goodnow gave him a warm reception and treated him to a banquet on hot lead. She has received many congratulations from her friends for her skill which she displayed in getting her first deer.

Mrs. Lilla Walker gave a "whist" party at home on Tuesday evening, Nov. 13. About 27 were present. Ada Webb received first prize and Victor Kneeland the booty. All had a very good time.

LOVELL.  
Deer were very plenty about here. Monday, after the snow of Sunday night, the hunters were out in full force. Clayton Littlefield got a ten point buck. Elmer Burrell got two smaller ones, Willie Gordon, L. W. Cushman and Linwood Sawyer got one each.

A meeting service was held Sunday evening at the Grange hall, North Lovell, by Rev. M. O. Baltzer of the Congregational church. It is expected that a service will be held there every other Sunday evening when the weather is suitable, until further notice. A Sunday school has been organized there, with an attendance last Sunday of 41.

An entertainment was given at Wiley's hall, Thursday evening, by the Ladies' Aid of the Methodist church. The booths for the sale of various articles, such as hats, dresses and aprons were tastefully decorated and well patronized. A farce, "The Merry Widow Hat," was very cleverly given by the younger ladies of the place. Excellent music was furnished by Eastman's orchestra, and the treasury of the Ladies' Aid was enriched by \$45.

## Scratch-Thoughts-Talks

Continued from Page 1.  
If you want to ruin your boy just take his side on every question and dispute he has with his teacher or your neighbor's children. Just let him know you are with him, right or wrong, in all his disputes. This will give him a good start in the downward path.

Timothy L. Heath and crew have put in a substantial retaining wall bridge-abutment-sidewalk near the Central Fire Station, formerly known as Engine House Hall, the home of the Old Oxford Bear Tub. It's permanent and looks well but all unnecessary. Have lived without it 15 years and have prospered.

Some one has said one hundred and fifty dollars was appropriated for the above purpose. How much was expended, can't say as we don't know. Will wait for the Road Commissioners, annual report.

Buy of your home merchants and you are increasing the value of your property. This is a fact, the better the town the more demand there will be for property.

Drake and Brooks, grocers have nice looking, well painted lounging couches set at convenient and conspicuous places about town. They are for all adventures, purposes and are at work all the time. It's a good idea. Ought they not to be taken from their job and housed for the winter?

Opposite the Robert Noyes stand on Main street a plank walk has been removed and fine gravel and common earth hauled in, rounded off and trod down. It's passable and sheds water and looks well you say. We refrain from comments.

There are many striking examples of the value of good roads. Wherever roads have been permanently improved it is found that there has been a very great increase in the value of the adjacent property.

The cement sidewalk on Cottage street near the Beale's Hotel has been removed and fine gravel and common earth hauled in, rounded off and trod down. It's passable and sheds water and looks well you say. We refrain from comments.

Each year the poultry business is becoming more lucrative and now assumes proportions that will soon rival any branch of farm industry. Farmers are forced to acknowledge that the old hen can lift her own weight in raising a mortgage from the farm. See hens in Norway Opera House, Dec. 31, Jan. 1, and 2 next year.

"What this town needs" a woman writes "is a stirring up of music." What most country towns need is less stirring up of its music and more side walks, better streets and proper sewerage. That is what Norway needs.

During the late mud freshet Dr. F. N. Barker brought out the 4-wheeled, one-seated one horse cart used for so many years by the late Dr. A. L. Hersey of Oxford. It's all right but a awful selfish looking thing.

It's the duty of a woman to be good looking, but that is no excuse for her to travel in the public streets more than half the time without permission from the fathers of the Norway Curfew Laws. Some time ought to be devoted to cooking, washing and rocking the cradle.

Henry B. Foster, the clothing man, has been doing military work. Maybe it's not just that but something very much like it. He has raised \$1000 among citizens and Norway business men and put a new 150 h. p. boiler in the Sanborn Shoe Shop Co's plant. Steam for heat and power is now generated by it. Mr. Fellow of Lancaster, N. H., the same engineer who ran the plant last year, shovels coal and has charge in the boiler room.

The payment of this money with 4 per cent interest is guaranteed by the Sanborn Shoe Shop Co. and a mortgage to that effect is on record at South Paris.

The old boiler which has seen years of service is to be sold for junk.

A. L. Sanborn, a son of D. S. Sanborn of Steep Falls and now a traveling man on the road was here recently with Chairman John L. Cummings of the Androscoggin Co. Commissioners. They were anxiously looking over the town and for what purpose we won't say. Later developments may be reported.

The man with side-whiskers always attracts attention. It's unfavorable attention; but it's attention just the same.

At one time we really believed—because it was so said—that the new Grange hall was to be used exclusively for grange purposes and that it would not be "let" in competition with other halls and with this understanding an exemption from taxes was voted.

Has this agreement been kept? Now, you say, Look up the records. The town clerk has them. Has the agreement been violated? If so then what?

The unfortunate Italian—we can't spell or pronounce his name—who turned gasoline into a lighted pea-nut roaster and got his clothes on fire, is still at the C. M. G. hospital, Lewiston, a pitiful object. His arms, legs and hands are lashed down and his sufferings are such as no one can tell. He will live but will forever be a very much a cripple. This accident occurred some time or more weeks ago in the Fruit Store in the old Beal's Block, Main street, and Frank Noyes caught an armful of new clothes from his store and smothered the flames.

Moral—Don't turn kerosene, gasoline or naphtha into burning lamps

## A STONE ROOFING

A good many people say and some people really think that none of the manufactured roofings are durable. Now this is a great mistake. A roofing that is composed of Asbestos and Portland Cement is practically everlasting. If you wish to pay the price, which is not very high either, you can have a roofing that will last as long as the Pyramids. As the philosopher John D. Rockefeller says about Sunday School, "The more you put in, the more you can take out."

J-M Asbestos Roofing is literary a sheet of pliable stone—with the rust-proof, rot-proof, acid-proof and lasting qualities of stone and with the fire-proof quality of Asbestos. And—like all stone—it never need painting.

We are agents for all grades of H. W. Johns-Manville Co's Asbestos Roofings and can furnish them for any desired price. Call and see the roofings or ask for samples and prices.

### SWEDEN.

Mrs. Charles William Bennett. At her home in Sweden occurred the death of one of Sweden's most highly respected residents, Charlotte Charlotte Bennett, wife of Charles W. Bennett. Mrs. Bennett was a granddaughter of Col. Samuel Nevins, the first settler in Sweden, whose wife came from Massachusetts to this place, riding an unbroken colt through the woods following a mere bride path for a road and carrying a young child in her arms. Mrs. Bennett was a worthy descendant of such ancestors and had the necessity arisen in her life, no doubt would have proved equally courageous for she was a woman of unusual strength of character. Their kindly, cheery hospitality will be long remembered.

Mrs. Bennett was a "born nurse" and was the sick and suffering who were cared for beneath that hospitable roof. "No one else could take care of me like Clarinda," said one who was ministered to by her during a long illness and that was the evident opinion of many.

Mrs. Bennett was born in Sweden in 1844, Nov. 22 and lived there all her life, with the exception of about three years spent in Greenwood after her marriage to W. Bennett in 1866. The oldest son, Ernest was born in Greenwood, her other children, Arethusa, who married O. H. Haskell of Sweden, Ethelbert, who lives at home with his father and the youngest daughter, Lottie, were all born in Sweden.

The funeral services were held at the home of the deceased, attended by the Rev. G. W. Barber of Bridgton, who spoke words of comfort to the sorrowing friends. The floral offerings were many and beautiful, attesting to the high esteem in which she was held. The interment was in the Haskell cemetery.

The Kennebec county jail is at present harboring prisoners from four counties, Kennebec, Oxford, Lincoln and Sagadahoc. The Oxford county prisoners would naturally go to the Auburn jail, but that institution is now filled and this jail is taking the overflow. The fact that this jail has such a large and well equipped workshop is one reason why so many are sent here. At present there are 20 prisoners in the Kennebec county jail and there are facilities for 75 to work in the shop, although not all the inmates are adapted to the work.

## SOUTH WATERFORD.

Oxford County Pomona.

Oxford County Pomona grange held its monthly session at the hall of Lakeside grange, Harrison, Tuesday, Nov. 12. Worthy Master J. H. Johnson and officers present. About ten granges were represented and were reported to be in thriving condition. A fine "Harrison dinner" was served to their guests by the sister grangers of Lakeside.

The afternoon session was devoted to a program of entertaining exercises announced by Worthy Lecturer Leslie McIntire as follows:

Beautiful grange that we love..... Choir Reading..... Brother W. S. Sias Sing and followed Mrs. Edith Bartlett Reading..... Sister Wood of West Paris grange

Mrs. Wood displayed marked elocutionary and dramatic talent and her performance was a conspicuous sensation of the occasion with repeated encores.

Reading..... Sister Lizette Pike Encores  
Question for discussion, How may the efficiency of the service of farm helpers be promoted?

Debate opened by Rev. G. W. Sias  
Rev. Mr. Sias was followed by W. L. McIntire who described his experience as an employer of labor on the farm, showing the value of faithful, skilled service in the various operations of hired men in the field work, and emphasized the importance of securing the best quality of farm service without regard to the rate of wages for such service.

Brother John A. Roberts of Norway Grange, gave an interesting account of his experience and observation pertaining to the relation between employer and employee.

Brother Fernald of Bear Mountain grange gave an account of the results of the recent campaign for the constitutional amendments for Woman Suffrage in several of the great Western States, and ventured to assert his belief in the accession of Maine to the column of free suffrage states at an early day through the favorable action of the next legislature in the submission of the question of an amendment to the progressive male voters of the Dirigo State.

Brother John A. Roberts of Norway Grange followed Brother Fernald in an address commending the remarks of the previous speaker and expressing the thought that the subject of legalization of suffrage for the women of Maine is soon to be a fact and on his motion Bro. Fernald was elected to prepare a set of resolutions relating to the enfranchisement of women to be presented at the next meeting of Pomona at South Paris, Dec. 3.

## DENMARK.

Willard Lord, Elmer Gerry and George Thomas have each shot a fine deer. The annual roll call of the Congregational church was held at Grange Hall, Saturday, November 16th.

Road Commissioner, Scott Wentworth, has worked on the road near W. W. Berry's. The bridge has been widened which is really a great improvement.

There is talk of starting up the young people's Christian Endeavor Society meetings in this place which seems a fine idea as our town surely needs more Christian workers.

A. P. Pingree found a flock of wild geese, in his field one morning recently, about one hundred, and all seemed very much at home. Evidently they had not heard of our sportsman.

Election news.—Your correspondent overheard this conversation recently, which seems the latest, that one lady not far from here had to hitch her husband to keep him from eating apple trees.

## HOW GIRLS MAY AVOID PERIODIC PAINS

The Experience of Two Girls Here Related For The Benefit of Others.

Rochester, N. Y.—"I have a daughter 13 years old who has always been very healthy until recently when she complained of dizziness and cramps every month, so bad that I would have to keep her home from school and put her to bed to get relief."

"After giving her only two bottles of Lydia E. Pinkham's Vegetable Compound she is now enjoying the best of health. I cannot praise your Compound too highly. I want every good mother to read what your medicine has done for my child."—Mrs. RICHARD N. DUNHAM, 311 Exchange St., Rochester, N. Y.

Stoughton, Ohio—"I suffered from headaches, backache and was very irregular. A friend advised me to take Lydia E. Pinkham's Vegetable Compound, and before I had taken the whole of two bottles I found relief. I am only sixteen years old, but I have better health than for two or three years."

I cannot express my thanks for what Lydia E. Pinkham's Vegetable Compound has done for me. I had taken other medicines but did not find relief."—Miss CORA B. FOSNAUGH, Stoughton, Ohio, R. F. D. No. 1.

Hundreds of such letters from mothers expressing their gratitude for what Lydia E. Pinkham's Vegetable Compound has accomplished for their daughters have been received by the Lydia E. Pinkham Medicine Company, Lynn, Mass.

WEST FRYEBURG.

Mrs. W. L. Howe has made a visit at her brothers at Harbor and Tena Johnson of Fryeburg kept house for her. Mrs. Howe is in quite poor health.

Mrs. Mary Charles has been at Mrs. Shuah Lewis for a few days. Mrs. Lewis is not well but slightly better than for a few months past.

Cassie Hutchins has an ill turn Nov. 15th requiring the services of a physician but is better.

Willie Farrington and Guy Eastman are building a wire fence, on a line of land lately purchased by Farrington and Eastman. Frank Pickering of South Chatham assisted one day.

Mr. and Mrs. John Reagan of Boston have been guests at G. B. Coleman's.

Marjorie and Kate McIntire have been sick, but are gaining now.

Tena Howe has returned to her home from W. L. Howe's.

Mrs. Edith Hardy is on the sick list. Kate Hill is with her.

Charles Johnson of Stow has worked at D. A. Ballard's.

Early in the week, Louise Ballard was a guest of Mrs. Arthur Andrews at her home in East Conway.

J. F. Boutwell worked for D. A. Ballard, Friday and Saturday, helping to lay pipe for bringing water to his building.

The late rains are filling the springs and wells that had been so low as to cause serious inconvenience to many residents.

Mr. and Mrs. George H. Hill of Chatham, N. H., and Mr. and Mrs. J. T. Boutwell visited at David Hill's, Sunday afternoon.

Mrs. Edith Hardy was taken suddenly ill on Saturday night, and the attendance of the family physician. Kate Hill cared for her.

Louise Ballard returned on Saturday, from an extended visit in East Conway, N. H., where she made herself useful in assisting with the housework in the home of her sister, Mrs. Richard Webster, during her late illness from the prevailing epidemic of bad cold.

Lela Shirley was the guest of Ida Ballard over Sunday and the young ladies attended the religious services held in the hall in East Conway, N. H., consisting of preaching by Rev. B. N. Stone of Fryeburg and a Sunday School in which the young people are enthusiastically interested.

Mrs. Elmer Walker is suffering from a painful injury to a finger. While running her sewing machine the needle entered her finger and broke.

Mrs. Walker was alone at home and called for a telephone, but managed herself to draw the needle from her flesh without assistance and with help in binding up the wound, the danger of serious results is removed.

Two other incidents of minor importance are reported in the neighborhood.

D. A. Ballard has been drawing water from the meadow opposite his building by a pipe to the barn and near the well was a hole some three or four feet deep.

Mr. Boutwell made a mistake and went into the hole, the fall resulting in a lame arm, not serious we hope. A little later Mr. Ballard dropped into the same trap but escaped damage except the loss of a favorite T. D. pipe, broken in the fall.

## WATERFORD.

Mrs. Cyrus Green is slowly gaining from the gripe.

Mrs. Addison Millett and daughter, Eloise, were in Norway.

Herman Weed and Walter McKenney have gone to Albany to work for Fred Kilgore.

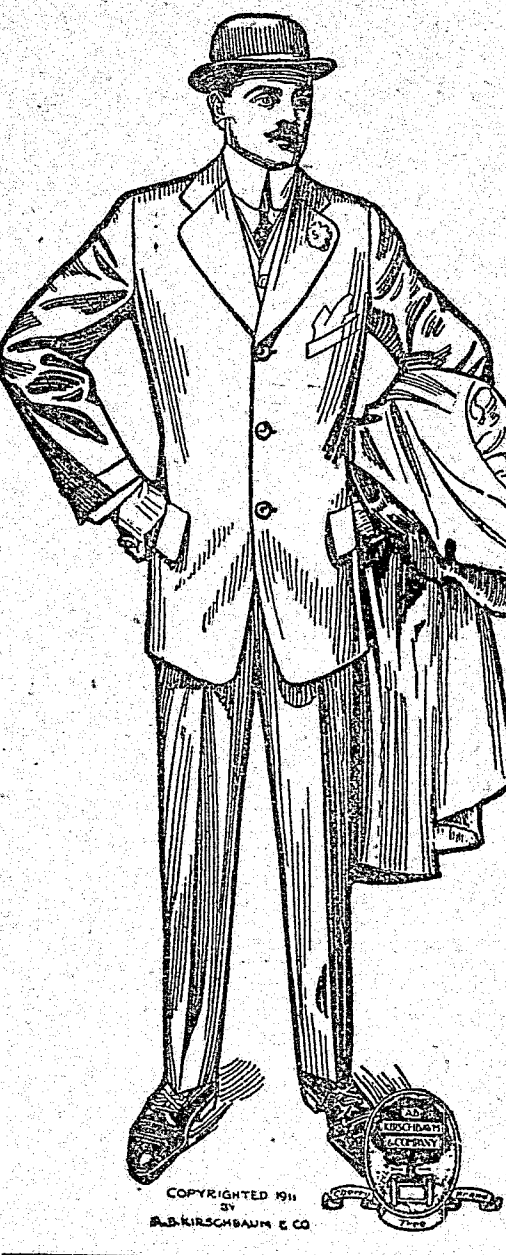

Harold Millett has finished work for F. H. Morse and is going to work for Frank Millett.

Arthur Millett has hauled Frank Millett's and Cyrus Green's apples to Harrison.

Mrs. Fred Black, who has been caring for Horace Green through his severe illness, has returned home.

Henry Dean and family have moved from Buckfield and gone to keeping house in part of Frank Millett's house.

We will sell them for prices that you generally pay for ordinary factory axes.

From one dollar to a dollar and fifty cents, with wedge and handle. Bear in mind that not over one in a hundred will prove bad if given a fair usage, such as was intended by the makers.

Ordinary mechanical intelligence will understand that a tool made to cut iron must have a different bevel than one to cut wood, showing that a bevel suitable to cut pine or spruce easily will not cut, with safety, pine or hemlock knots, which are about as hard as iron and as fatal to a good edge for pine as would be iron.

Our axes are best made at any price.
